

Course title	Canine Grooming I				
Course Code	CCAN-109				
Course type	Required				
Level	Diploma				
Year / Semester	1 st Year / 1 st Semester				
Lecturer	TBA				
ECTS	6	Periods / Week	1	Practical / Week	5
Aims of the Course	This module provides students with comprehensive knowledge and practical skills related to canine grooming. Students will learn about different grooming techniques, tools, and products used in professional grooming. They will also develop an understanding of proper grooming practices, maintaining a dog's coat and skin health, and providing essential grooming services.				
Learning Outcomes	By the end of this course, students will be able to: 1. Comprehend the importance of grooming. 2. Explain the benefits of regular grooming, including maintaining skin and coat health, preventing matting and tangling, controlling shedding, and detecting potential health issues early. 3. Master grooming tools and techniques. 4. Apply their knowledge to address skin and coat conditions.				
Prerequisites	NONE		Core Prerequisites	NONE	
Course Content	1. The importance of grooming for a dog's overall health and well-being. 2. Use grooming tools, including brushes, combs, clippers, scissors, and grooming products. 3. Different coat types and specific grooming requirements for each type. 4. Knowledge of proper bathing techniques, including selecting appropriate shampoos and conditioners for different coat types. 5. Safely and effectively trim a dog's nails and clean their ears. 6. Common skin and coat conditions in dogs and understand how grooming practices can help maintain skin health. 7. Proper handling and restraint techniques to ensure a safe and comfortable grooming experience for dogs. 8. Professionalism and effective communication skills when interacting with dog owners and providing grooming services.				

Course Delivery	The course is delivered through lectures, discussion, assignments, presentations, case studies, laboratory applications and practical work.
